This M'luru girl rewrites record books with both hands

MANGALURU, DHNS

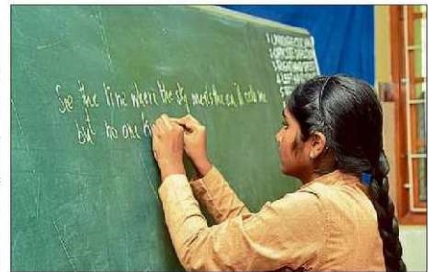

A multi-talented girl who has the ability to write English words using both her hands won Lata Foundation's Exclusive World Record (EWR).

Aadi Swaroopa can write 45 words in one minute using both the left and right hands.

Aadi, daughter of Gopadkar and Sumadkar of Swaroopa Adhyayana Kendra in Mangaluru, began writing using both her hands two and a half years ago. She can write in 13 different styles using her both hands.

Gopadkar, highlighting her achievements, said she can write unidirectional, opposite direction, right-hand speed, left-hand speed, reverse running, mirror image, dancing and blindfolded, heterotopic and others.

Aadi, who is into informal schooling, said she had achieved more than what students achieved with help of formal education.

Aadi Swaroopa demonstrates her skill of writing using both hands.

Besides being ambidextrous, Aadi also pursues literary activities, music, Yakshagana, drawing, mimicry, beatboxing, memory exhibition, among others.

She is also learning guitar

and keyboard. She is now writing a fantasy novel in English.

Aadi will celebrate her 16th birthday on September 15 and therecordisagiftforher birthday, said Gopadkar.

"Writing in both hands will

help in activating both the sides of the brain scientifically," he said.

A multi-talented Aadi Swaroopa has been engaged in self-learning at Swaroopa Shikshara Adhyayana Kendra.

Aadi and SSLC examinations

Aadi Swaroopa, a product of informal schooling, will be writing her SSLC examinations in 2021. Gopadkar said Aadi hopes to submit the answer scripts in record time by answering the questions in both left and right hands.

She had learnt to read when she was one and a half year old and could write at least 30 pages when she was two and a half years old.

She is learning Hindustani music under Pandit Ravikiran. She has presented more than 50 Yakshaganas shows. She also has a collection of stories and held a solo painting exhibition in Mangaluru recently.

Now, she is getting ready to create a record of memorising over 1,000 items in four to five seconds.

Purpose

Lead along with SWAROOPA STUDY TOUR

Today's only **Certificate- education is demanding an alternative.**
Here is the Swaroopa Education where everyone
can enhance their talents and abilities.
Whom are the children with?
Here is the complete answer to that decision. There is a basis,
Cooperation and training as well.

The result of research conducted by Gopadkar for the last four decades at Swaroopa Study Center is -All children must be GENIUS, all children must be EXTRAORDINARY.. In the present Education system children are deprived of receptiveness, talents due to the wasted periods for marks oriented exam. Something which everyone knows about. "Children have latent talent." It should be manifested. Those words are hidden only in the mouth of the speaker. More than 22 educational projects that have come so far are doing well. But someone's willpower and systems have failed to implement them..., That too is a matter known to all - Swaroopa Study Tour will now be an alternative and solution to everything.

Many talents are reasons for special interest in learning, achievement, discovery, and continuous development towards continuous performance

**taking alongwith
SWAROOPA STUDY TOUR
is the purpose**

Education cannot change
Without teachers' change.
The text portion of the exam is just for parents
Ready-made content that demands points ,
The system has almost confined the
achievement of teachers and children to the
ready made aspects- portion, examf marks.
They need to be Released.

Transfer of ten qualities such as receptivity (accepting, questioning) in many matters related to the above MEMORY DEVELOPMENT, BRAIN SKILL DEVELOPMENT. Interested teachers will be selected for continuous learning development, demonstration and training. Initially at least 10 teachers from each taluk of the district have to select ten students who are willing to participate in the subject of altered pleasure for this Swaroopa Study tour. (A total of 10 students from the same class or from the entire school from 4th to 10th class) Teachers will take them towards learning, talent and ability in their area of interest. Education will be a celebration where children will participate voluntarily without any pressure **"This is Not That"**.

The possibility of Swaroopa Education is a basis that can be claimed directly in front of anyone. My son has increased his ability. He is doing amazing right now. Waiting for this to be exposed in media news.

SWAROOPA What? Background by Whom? Where? When started?

Swaroopa is the self . Swa-roopa Adhyayana. Swara+Roopa-Swaroopa=**Voice & Expression**. Every child is genius, all children will become extraordinary. From 1983 to 1991, Gopadkar gained practical experience from his career as a high school teacher and training institute's art teacher. **This exposure is the main resource for the present Study Tour. He has** been engaged in continuing education **research** for the last 40 years and has showed good results with practical demonstration.

Gopadkar and Sumadkar of Swaroopa Study Center **are** now offering a great contribution to the country through the **Voice & Expression project**. Their **daughter** Aadi Swaroopa who **set** 8 world records will be a role model for this.

This is also based on the experience of Swaroopa study group started for ex-students of Mangalore Teacher Training Institute (DIET) from 1991 and educational experiment conducted for 18 years on children and teachers by student teachers in Swaroopa Vatara, started in Kunjathbail Mangalore in 1993. All educational activities are based on experiential learning.

In 2010 he came to the city and ran an informal school (Swaroopa Education Research Centre) in Kodialbail, Mangalore and made hundreds of children as role models. Swaroopa gave 1600 performances across the country for 10 years through a continuous "Sikshan Jagariti Jatha" (35 children and 6 teachers along with their parents, traveling by bus 90 days a year). More than 6 lakh students, teachers and parents were given Educational awareness.

Gopadkar's Jatha and Memory Empowerment, Mindfulness and Theater Activity Camps were conducted in more than 1600 school centers across the state. These are a part of the Swaroopa educational experience. For all these activities, Writer, Yakshagana artist Sumangala has given special support. Now, Gopadkar, Sumadkar and Aadi Swaroopa's research's continuation is **Swaroopa National Development Education**. Now we have Swaroopa education at Swaroopa Study Center, Mangalore. 10 students are getting ready for the Development Education 10x10 daily exhibition strategy. Aadi is leading all of them. The children, holding many world records are ready to perform in front of you, for the **ONE TEACHER 10 STUDENTS - SWAROOPA STUDY TOUR**.

DEVELOPMENT EDUCATION 10X10

This is a unique project for all, children and elders, a program of daily development demonstration covering ten subjects from ten domains for joyful learning and celebration. Till yesterday there was no public show of the records of the learning of a student, a teacher, or a parent.

If it had happened, it would have been a development for today's performance. This will be demonstrated through regular **DEVELOPMENT EDUCATION 10X10** learning. This will be of a special importance for **scoring in the examination.**

TRAINING SUBJECTS

Sharpening the intellect
Awakening the power of memory
Creating motivation for self-learning.

Who are the children with, how are their qualities, talents and abilities shared with the children. Let us observe how the quality is transferred.

One becomes the same when he/she is in the company of hundreds of field practitioners like readers, writers, learners, researchers, artists, thinkers, scholars.

I am not an artist because my father is an Artist. But father doesn't even teach art. Aadi Swaroopa always says, children should not be with the gifted, children should be with the learners. I am with such a father who enjoys drawing and writing.

**All children of our country
are not achievers. Why ?**

In September, October, November
Swaroopa's 10 proficient children will stage
an amazing memory performance
at the district centres of the state and give training.

Choice of Teachers : We have requested that at least 10 interested teachers from each taluk be sent for demonstration and training by BEO's through DDPI. After one day's training, there will also be a couple of hours of Online training per week.

Selection of 10 students : First of all, 10 children will be selected who have shown interest in learning, accepted change by responding to teacher's change and also engaged in practice.

Study tour: Children's and teacher's daily development, video recording will be shared through you tube channel. Through this all the children will be able to improve their performance to a higher level with a short period of practice and will become successful in more than ten subjects. In addition, Swaroopa Sadhaka gives trainings to set several world records also.

**All children of the

STUDY TOUR

Is there any hindrance to the current syllabus? How is the Cooperation of Education department?

Education Awareness Jatha is the fruit of Swaroopa's 18 years long research conducted with children and teachers, since 2018 for 10 years in 1600 centers of the state i.e. in most of the taluk centers of the state through District Collectors and DDPI. It is a three-hour show about how kids become heroes from zero.

More than 6 lakh teachers and children have demanded Swaroopa Education after watching the 90-days Education Awareness Jatha in those years. "Give us this education too.... Take us also on the path of this achievement" was their demand. The result of this demand is the present Study Tour.

The research carried out by Gopadkar, director of Swaroopa Adhyayana Kendra with children's teachers for 40 years, is the model for today's Swaroopa Study Tour. Around the same time Gopadkar and Sumangala started their careers as instructors at the Education and Training Institute (1993 DIET and Rosamystica TTI Mangalore) the Swaroopa Adhyayana Kendra group came into existence. Their Daughter Adi Swaroopa is now a model for Study Tour.

Is it complementary to the current syllabus ? : YES ...YES
It is a total complement.

Creating a cause for inquisitive learning.

Memory Boosting, Brain Skill Development Activity, Time will be adjusted for Multitasking in order to develop 10 Multiple Talents. Mainly, when the habit of receiving begins, the intellect becomes sharper, the knowledge expands, the result of the exam will be better and better.

As knowledge and talent increase, the reason for self-learning will emerge

When all the children of a school come to Swaroopa Study Tour, it will transform them into achievers through brilliant talent and learning outcomes. After completing all the portions in one or two months, everyone can memorize the notes of the Visual Memory Art, and it is true that the rest of the days will lead to many achievements. Tenth class portion can be completed ten times and revision can be done hundreds of times but ... 60% children have basic problem of reading, writing and acceptance. Here is a solution for that too.

Cooperation of Education Department:

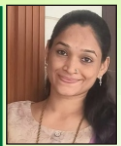

**Swaroop's
Self-directed education**

**This is not that
not that**

Allowing interested teachers to experiment with it in school classrooms. At present, 10 teachers of the taluk need permission to take 10 children from their respective schools to Study Tour to watch the Swaroopa performance.

**When there is direct result evidence
no one can disagree with this.**

Choose formative education for unleashing the potential within children. Swaroopa Education is needed to realize one's abilities and become an achiever. It is the education of life that seeks the lost consciousness. Swaroopa's different experiments create a reason for learning Specializing in Education.

SWAROOPA STUDY TOUR

How the result will be recorded.

WHY NOT

After the completion of portion, if the method and period change, all the children of this country will become brilliant and outstanding achievers.

When we see good quality, results, ability and talent, the demand will naturally grow from everyone around us. SNDE10x10 daily learning daily performance is important.

The lesson the marks ranks all going on smoothly. We get certificate. But this is not that. This education is for equality in result talent ability and achievement.

Yesterday the growth performance of 95% of children teachers and parents of this country was not revealed. Everyone needs a development result. Textual knowledge is only for zero development and zero talent. Yesterday no one has consciously asked written questions to increase knowledge. Not a single new word is used. Knowledge bank and Word banks are dead. A certificate is obtained for school examination, learning and forgetting. Where is ability and achievement?

SNDE

WWHKST 6 Banks

A major record will take place in the revolution of education possibilities.

Word Bank, Health Bank, Wealth, knowledge, Skill & Talent Banks.

Jnanabharata Gurus Chosen for Swaroopa Study Tour get training for transaction in these banks.

Study Tour's Result and Record:

10 children selected from a school or all the children of the school selected for Swaroopa education are going to report daily performance record as per swaroopa SND 10 x 10 training. Is it true that when we know that someone is watching us parents, relatives, public etc the energy/capacity in the daily learning performance will increase even more? If teachers and parents gift motivated students initially, students engage themselves in self learning competitively for the marks of 1000 lakhs daily for joyful learning. Students attend regular Google meets and get more and more encouragement and support from everyone. All the participating students are always in the news for achieving World records. Swaroopa study Centre team would approach the special achievers and give them essential training to record their improvement on YouTube channel. Thousands of children will further increase their number of World records.

Swaroopa Educate is a model for the country is competency based education it is definitely an alternate certificate education. This country needs Swaroopa Education. My son studying in Swaroopa has improved his memory and set 2 World Records. It is worth being in Swaroopa

-Pampapathi Shivmogga, Parent, Swaroopa Trustee

Do your town ,your school children need a swaroopa achievement education?

YES.....YES....YES....!

Swaroopa Education when? From where? Do you agree first? Then it starts from there.

This is not that, do you agree? Teachers and students will be released From all the limitations.

The world's largest lie is no time. Don't say that. Say that importance is not given. That's all.

- Do children become achievers with Swaroopa education...? **Yes!**
- All the children of the country are brilliant. Will you be famous? **Yes!**
 - 60% of children cannot read and write properly. Is there a solution to all these problems...? **Yes!**
 - Are you orators, writers, artists...? **Yes!**
 - Is everyone good at maths...? **Yes!**
- Apart from the speech, teaching, advice, can they speak for result...? **Yes!**
- Comprehension, thought, thinking, activity, creativity, receptiveness, patience, Hospitality, etiquette, gratitude, benevolence, remembrance, all these qualities are inculcated in everyone because of Swaroopa education.. **Yes!**
- Do teachers and parents change in their learning abilities...? **Yes!**
- Everyone will get good result in a exam....? **Yes!**
- From now on children won't remain ordinary, but become achievers. Is it? **Yes!**

Lack of Acceptance

Are the children of your school in your town not successful? seniors, are you also pros? So, there are all these limitations in the school and houses in that town, right? So let's agree first. Let's find the solution later...?

There is no alternative

Do you agree to have a change in school education which is as now Centre for limitation?

- All the children in the class have global knowledge, local knowledge, textual knowledge, lakhs of general knowledge Do you remember this Swaroopa education strategy? .Yes.
- Will the receptive rate, which is already zero, become 10%? Even 1% is also greatYes.
- Will everyone make 10 world records by the time they reach class 10 . Will they write books. Yes yes. It is possible if most of the companions motivate each other..Yes.

There is truth. Answer base

Do you want your children to become achievers?

Children with whom, where, and how?

- Will the 10th class portion be completed for 7th 8th 9th class children earlier in one month? ,...Yes.
- Teachers struggle to complete portion. Byheart/copy is also not needed.
- Do they write exam with both hands ? Do they know 10 languages? ..Yes yes.

There are hundreds more to say....

So if all this is true, then who doesn't agree?

All these are possible when a school is fully committed. Let's be pros.

Swaroopa Education is understood by children more quickly than it is understood by adults. It will make sense. SNDE 10x10 project is wonderful contribution to economic development of the country. time has come now to accept it.

Swaroopa Education-a bird's eye view

SNDE 10x10 - Swaroopa National Development Education

1. For over 40 years Swaroopa group has been involved in alternate education. SNDE10X10 is the best research based model.
2. It is formed creatively in a simple beautiful design.
3. Those who have seen closely have agreed and appreciated it as a revolution in education which can transfer the possibilities of the whole system.
4. It has stepped into the country through the swaroopa study tour YouTube channel.
5. Current education is not good.. It is just a certificate-education. People's long felt need from decades is that education should be a competency based one. In this context swaroopa education is completely an alternative and a solution as well. Truth of possibilities will be revealed and a new history will be created.
6. This does not in any way interfere with the present educational text or syllabus or examination methods. The portion will be finished quickly and can be recalled. If necessary, Period\Bell teaching-learning method need minor changes, that's all. From these opportunities within the limits of the system SNDE 10 x 10 project, teachers and children will be released from their limitations of real competencies.
7. It is development education with the possibility of independent learning. It is not just the education that teaches. Learning is not for forgetting. For this a clear solution will be provided. It is the education to get real knowledge and save it. Swaroopa Education is self- learning education which enables stuents to regain the lost talent and capabilities.
8. This is the knowledge that will be the break through solution for knowledge equality. Swaroopa will put an end to inequality in capabilities and gives the right of learning to children's hand. This education has strong base to show that every child is genius, all children extraordinary.
9. Awake for 16 hours in a day. They can utilise their thoughts for production and bring knowledge equality and economy in the country. It is a multitask education.

10. **SWAROOPA NATIONAL DEVELOPMENT EDUCATION (SNDE)** It will be a huge contribution to the country's development (energy and employment generation). Self-respect and patriotism will be the main mission and goal.

11. All in all, it is an education with joyful learning and life skills.

I came to know that some of the students in Swaroopa have pursued their MBBS, MD, Engineering degrees. From this I understood that I can send my son to Swaroopa, there is no problem to get a job or study any higher education. Aadi has done her 10th and PUC through private exams. I am assured that my son would be a role model with highest marks in all degrees and also 10 world records.

Swaroopa National Development Education 10x10 Project

A lot of changes can be seen among swaroopa students in talent and achievements.

Swaroopa Education - This is not that

Do the teachers at your school want all children to be achievers? If so please understand the complete Swaroopa SND education.

**ONE SCHOOL
ALL TALENTS**
If you have 300
childrens in your
school from LKG
to 10th standard
they will be
Like this.
Such is the nature
of education.

Let's start from the next academic year **SNDE 10x10 Memory Camp** (in April May 2025) 12 days training for teachers, children and parents.

For the first one month we are going to conduct festivals in schools for mental preparation (Let us consider it as bridge course) to release from the previous readymade systems. If there is a lot of interest and demand in this regard or if there is any confusion or curiosity, we will put it together and clarify the possibility.

- 1. Reading fest :** (one week) reading supplementary book to support current books. 90% of people in this country do not study after getting the certificate. So let the children have interest in reading and be with those who are good at reading.
- 2. Writing fest :** (one week) 90% of people in this country do not have the power or habit to write their own literature. It is because they are not staying with writers. They are not acquainting with the talented. In Swaroopa after this festival they are going to develop writing ability.
- 3. A festival of scribbling, talking and searching.:** Drawing a picture by just scribbling creative art. They will be engrossed in it. Everyone is going to be an artist. Through this drawing children develop patience concentration etc. As they learn multitasking children never sit idle in Swaroopa. They learn many subjects, gradually they get to know the possibility of result oriented education. They start talking about the drawn pictures and learn how to speak for result. (Except speech, teaching advice). This festival of deep insight probes everyone to be researchers.

- 4. Education in forest :** (one week) if there is an opportunity this will imbibe environmental love amidst the forest. It should be haunting in their inner self to know the need of this education. This week full will be a period of **Jnana Pragna Vidhi** activities. During this period children get exposure to Swaroopa siddhanta-Who am I? Where am I? What am I doing? Where am I going to? This is a period of introspection. They will be prepared in 10 memory techniques and to visualise the lesson and register it in memory. All these festivals are the

moments of preparation for the release of all the confinements. In the same time 10 qualities will be observed, acquired and transferred through group psychology.

5. Portion fest: The teacher-children who have learned the ten techniques of memory will complete the portion in a minimum period (one, two months) and make notes through Visual Memory Art. They agree to share lessons in other memory strategies and be prepared to share with others.

If there are 30 students in a class, each of them will have a total of 6 lessons from all sub-categories. The learning method of the latter days is Classroom study tour. This will allow for the enhancement of many possibilities, talents and abilities.

LKG, UKG for 1st 2nd class, 1st class to 3rd class, 3rd to 5th class. Classes 5 to 7, 8 to 10 will travel for one or two hours daily. Example: Out of 30 students of class 4, 10 stay in the class that day and 20 go to class 5, 6, 7, 8. He seems to remember all those lessons prepared in his class.

Then everyone comes back to the class and shares and records what they saw. All the class members will travel to the previous classes as well. Since the tenth class will finish the portion for the lower classes, there will be many revisions. A good teacher will share his/her knowledge, experience and learning with children.

These sessions will be performed in a festive atmosphere according to the mood of the season. The portion of the same day will be answered and scored on the same day. The daily celebration will be recorded and the daily life of learning will be displayed through a video so that the parents can see it.

6. Daily learning festival : Achievement, discovery, record, performance is monthly and annual festival. After the completion of the portion, daily training will be given with the opportunity to see all the lessons once a day. The deficits will be filled through more activities for those who are (slow learner) backward in language learning without being able to read and write. Everyone is always involved in some practice and activities for the world record. As there will be daily YouTube performances, everyone will participate competitively in the daily festival.

7. SNDE 10x10 Daily Study tour chart : This will help to stabilize talent in 4 categories of ABCD. The Study tour SNDE 10x10 will start only after the festival is over.

A. Attitude B. Brain Skill development

C. Memory development Alertness D. Subject and Self study.

In total, 58 topics will be experienced in these four sections without burden. For this, daily they get thousands of points. The main objective here is to awaken the moment-to-moment memory.

Swaroopa Education School - A Revolution of Possibility

This is a demanding season

The truth of possibilities lies somewhere. SNDEducation encompasses all the possibilities and solutions. Let the truth of the agreed result spread in the community. The victory of the country is in the first and last decision of the parents. It has to happen.

SWAROOPA NATIONAL DEVELOPMENT EDUCATION

When total possibility of Swaroopa education is accepted all children will become outstanding achievers during the 12 years of schooling from LKG to 10th standard. There are people who have accepted this and experimented. Those who have accepted also need more support.

This result should be achieved when studies are carried out in a school that accepts complete Swaroopa education. This is not a ready model. A winning record of research-based strengths.

After reading festival, writing, drawing, speaking, KADALI Education and portion festivals are over, the children keep what they have read as a knowledge fund and are in a self-learning celebration with teachers, professionals, researchers.

Let's see what a school with 300 children achieves.

1. Everyone develops 10 qualities by becoming an artist. Everyone will do pictures at least 100 per year. Hundred paintings $300 \times 100 \times 10 = 3$ lakh pictures will be exhibited all over the country.
2. The lessons are all dance, music, poetry, sculpture, drama, as they move through the 10 techniques of memory. Mime, Mimicry and beatbox will be in routine practice and it will be a regular performance. Thousands of performers will always be in the news through social media.
3. There is a need every year to collect at least thousands of general knowledge. Every child can do it with the cooperation of parents, relatives and teachers. General knowledge packages will be retained in memory by all, through memory techniques. General knowledge books will be printed in 20 languages and income will be shared in the name of child or parents.
4. Stories, poems, articles need to be written regularly. A result oriented letter need to be written daily. Visualisation needs to be extended to natural language. Thousands of articles have to be written and compiled and could be published.
5. From all the lessons of the textbook one sentence question and answers will be collected as a general knowledge package. Supplementary books will be published with extra knowledge about the topic. General knowledge and supplementary books for all courses in all languages will be distributed across the country. All the content of the text

will be prepared as a pocket diary with memory techniques. All the textual knowledge from CBSE, ICSE and state syllabus will be prepared as general knowledge package and will be shared with each other. Swaroopa education is available through alternate adjustment of multi task.

6. Mathematical knowledge has to be shared in all the classes from all the teachers. Everyday children have to get 10 simple maths questions from home. Life related problems which need basic operations like addition, subtraction, multiplication and division have to be given daily which help

False belief in formal school certificate should not be intimidating to parents. Then the strength of achiever students could increase. This certificate education has been looting the capabilities of students for many years. Education for competency is needed in this country. It is enough to change the method of finishing the tests and the period /Bell. All will be fine. I have witness the possibility of this. My daughter has not spoiled her future in swaroopa. With 10 world records she has qualified to pursue the higher degrees.

them to sharpen their brain skills and solve life problems quickly. All the teachers need to help student to overcome their limitations in mathematics by sharing their knowledge daily. Minimum 9 lakh problems or mathematical sums have to be shared in the group and enjoyed.

7. Every student will complete the study of portions in a couple of months and bring everything into memory once in a day and engage themselves competitively for personal development. It is vital that 50 subjects will be revised habitually. Children will get ready to accomplish the target along with the routine practice of 10 world record subjects. In an average in a year two or three world records can be set. 100 people can set one world record each in a year.
8. Scores will be added to the bank account within a few days as their earnings. It will be filed as a certificate for routine labour along with respect and appreciation. All the six banks will be helpful as a fund generator for higher education.
9. Under Jnana Bharata SNDE 10 x 10 project children will practice 10 subjects from 10 domains. Example 10 or 20 languages. They are going to use each letter, word and give speech regularly. They practice beautiful handwriting by writing with both hands and correcting the errors regularly with conscience. In addition to this they will be busy in many activities like juggling, Rubik Cube solving ,speed stack, chess , origami. In every activity they will be mindful to explore new possibilities. No student in swaroopa can stay without sharing the acquired knowledge with others. This is mainly an intellectual exchange benefits share project.
10. Swaroopa child will get education with life skills. Electrical repair, tailoring, swimming, cooking, agriculture, environmental love, defence awareness, discipline , cleanliness , love of this land-everything will be cultivated.
11. SND mobile education will help to touch emotionally thousands of professionals and achievers. Let these children be inspired by all these great achievers. Let the children be with professionals ,seekers and learners. Let them not kill the precious time of 20 years just for a certificate . Let the system found by the elders do not create limitation in the capabilities of children. This is Swaroopa.

**Social activist, reformer,
litterateur and educational thinker.**

**A significant step in the education revolution is the Swaroopa study tour. Let us all welcome the ongoing Swaroopa study journey for a vision of future India.
Let us go along with the Swaroopa Tour that is going to build a valuable society for the solid foundation of our children's education.**
